Investor Presentation
November 2022

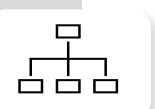

This presentation and the accompanying slides (the “Presentation”), which have been prepared by **Shyam Metalics And Energy Limited** (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

Certain matters discussed in this Presentation may contain statements regarding the Company’s market opportunity and business prospects that are individually and collectively forward-looking statements. Such forward-looking statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties and assumptions that are difficult to predict. These risks and uncertainties include, but are not limited to, the performance of the Indian economy and of the economies of various international markets, the performance of the industry in India and world-wide, competition, the company’s ability to successfully implement its strategy, the Company's future levels of growth and expansion, technological implementation, changes and advancements, changes in revenue, income or cashflows, the Company's market preferences and its exposure to market risks, as well as other risks. The Company's actual results, levels of activity, performance or achievements could differ materially and adversely from results expressed in or implied by this Presentation. The Company assumes no obligation to update any forward-looking information contained in this Presentation. Any forward-looking statements and projections made by third parties included in this Presentation are not adopted by the Company and the Company is not responsible for such third-party statements and projections.

All Maps used in the presentation are not to scale. All data, information, and maps are provided "as is" without warranty or any representation of accuracy, timeliness or completeness

Key Updates for Q2 & H1 FY23

Strengthening Brand		S E L	Advertisements running with Salman Khan as Brand Ambassador, new products gaining traction	
Update on Capex			<ul style="list-style-type: none"> On track to increase the existing integrated installed facility of 8.86 million tons to 14.45 million tons by 2025 	
Business Updates			<ul style="list-style-type: none"> Pursuant to the direction of Hon'ble NCLT, Monitoring Agency has handed over the custody and control of Ramsarup Industries Limited to the Resolution Applicant S S Natural Resources Pvt Ltd. The Company holds 60% stake through its Material Subsidiary Company. 	
Financial Performance			<ul style="list-style-type: none"> Q2 FY23 : Revenue : Rs 3,085 cr , EBITDA : Rs 243 cr , PAT : Rs 110 cr H1 FY23 : Revenue : Rs 6,308 cr , EBITDA : Rs 850 cr , PAT : Rs 525 cr 	
Diversification			<ul style="list-style-type: none"> Commenced production at newly commissioned Aluminium Plants at Pakuria ,West Bengal & Giridih, Jharkhand, delivered 4,414 MT in H1 FY23 	

Strengthening Brand 'SEL'

TMT

TMT are used for the construction of buildings, transmission towers, industrial sheds, structures, road, dam and in other various infrastructures

SMEL sells the best quality TMT primarily in the states of West Bengal, Odisha, Bihar, Jharkhand, Tripura, Sikkim, Assam, Arunachal Pradesh, Manipur, Meghalaya, Uttarakhand, Uttar Pradesh, Punjab and Haryana. Our TMT and structural products are sold under the brand "SEL"

STRUCTURE

Structural steel describes hot rolled steel products such as angles, channels and beams. With an array of high-quality Structural products under the brand 'SEL', backed by world-class service and its other products, SMEL holds its pride of place among the leading steel manufacturers of the country and material directly from the DRHP

WIRE RODS

Towards forward integration, SMEL has set up high quality Wire Rod manufacturing & Wire Drawing facilities with best available technology and plant & machinery support

Since the raw materials are manufactured in-house at our plant, the company is able to produce high quality Wire Rod & H.B. Wires in an efficient & cost-effective manner

Eminent Promoters & Management

Mahabir Prasad Agarwal, *Chairman*

- An accomplished business leader and a first-generation entrepreneur having more than 50 Years of experience in steel & ferro alloys industries.
- He has the foresight to lead the Company in particular on a transformational journey and contributing significantly in growth path of the company.
- His keenness to give back to the society and a desire to improve the lives of individuals, led to the formation of Shyam Metallic Foundation which is committed to provide the means to empower individuals to bridge the socio-economic divide and contribute to the creation of equitable and sustainable communities.

Brij Bhushan Agarwal, *VCMD*

- A visionary business leader and second-generation entrepreneur.
- A guiding force for the company and having over three decades of experience in the steel & ferro alloys industries.
- His array of exposures percolates to areas like strategic planning, business development, future expansion, execution of projects, Marketing, Human Resource and corporate affairs of the company.

Sanjay Kumar Agarwal, *Joint Managing Director*

- Holds a bachelor's degree in commerce, with honours, from University of Kolkata.
- Over 18 years of vast experience in the steel & ferro alloys industry.
- Primarily responsible for the Operations / manufacturing of the plants with focus on cost control, production efficiency, competitive procurement of raw materials etc.

Deepak Kumar Agarwal, *Director Finance*

- He is an Associate member of the Institute of Company Secretary of India.
- He is a techno commercial professional and possessing more than 20 years of experience of steel and ferro alloys industries.
- His array of exposure percolates to areas like finance, accounting, taxation, banking and treasury, corporate governance, merger and acquisition, project planning and execution, legal, secretarial, costing and cost control, risk management, Accounting & Audit etc.

The Management Team is ably assisted by a very strong team of Professionals who have contributed immensely to the growth of the Company

Value Propositions

1

Backward & Forward Integration with presence across the Value Chain

2

Flexible & Diversified Product Mix

3

Strong Brand & Distribution Network

4

Logistical Advantage & Infrastructure Advantage with Private Railway Sidings

5

Captive Power for ~82% power requirement

6

Capacity Addition to increase share of High Margin B2C Products

7

De-Leveraged Balance Sheet giving flexibility in growth

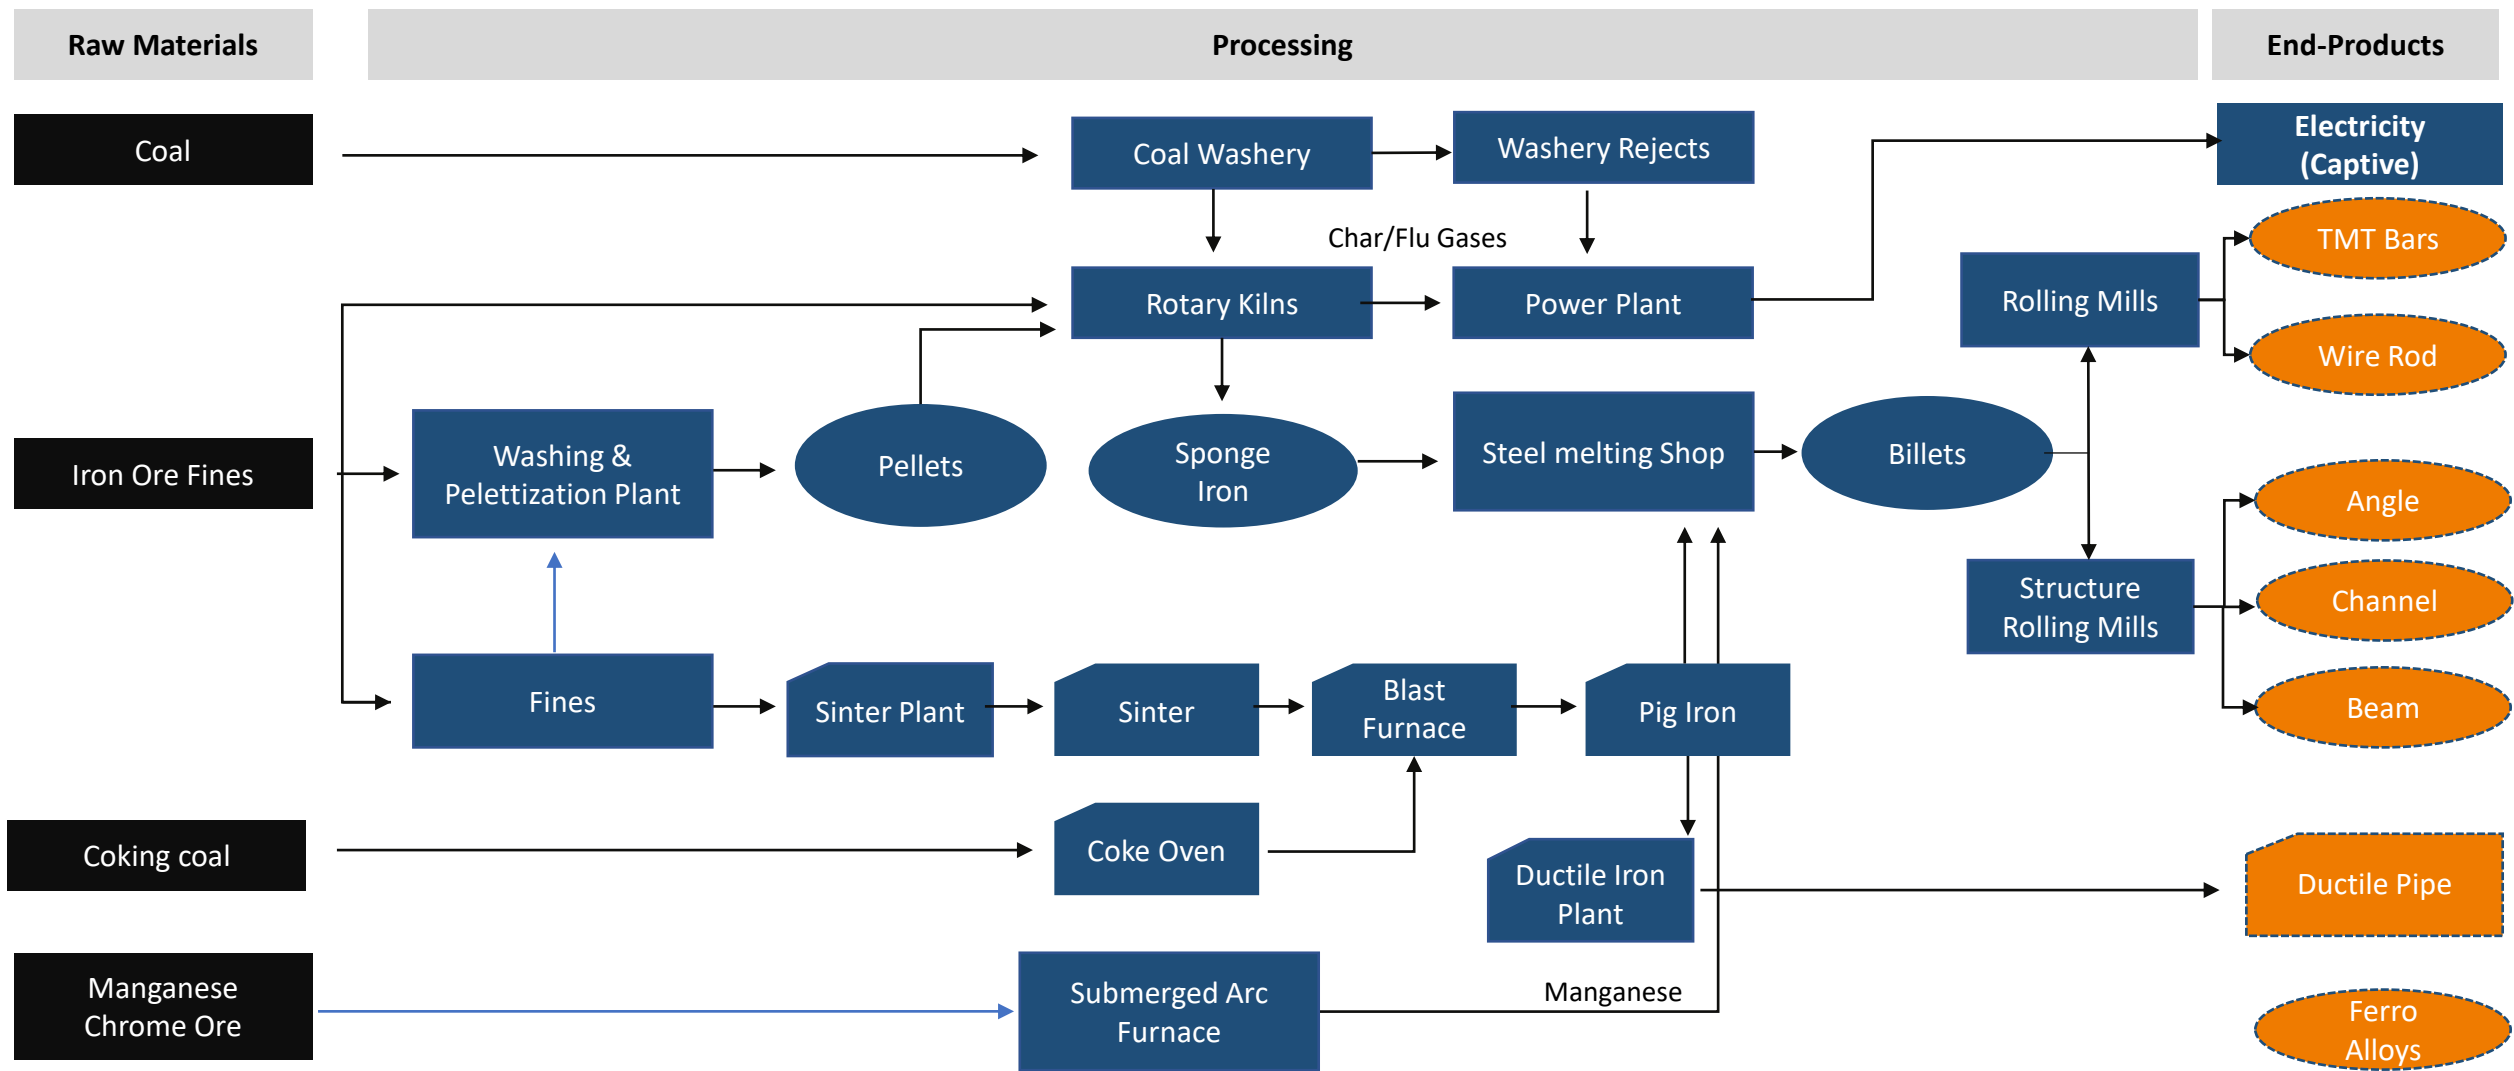

8

Sustainable solution - Waste used as 'Productive Inputs'

9

Consistent Performance over the last decade

Integrated operations across the steel value chain

Brownfield expansion with...

Jamuria Plant

Sambalpur Plant

Railway Siding

Captive Power Plants

Captive Water Reservoir

We have 1 manufacturing plant located in Sambalpur, Odisha and 1 manufacturing in Jamuria, West Bengal with aggregate installed capacity of 8.86 MTPA comprising of intermediate and final products.

We also have a small plant in Mangalpur, West Bengal with aggregate installed capacity of 0.1 MTPA

These plants also include captive power plants with an aggregate installed capacity of 267 MW

**Brownfield expansion leading
to
Lowest Capex in the Industry**

Detailed Plant Wise Capacities* – Existing

Product –Wise Capacity (MTPA)	Pandoli, Odisha	Jamuria, West Bengal	Mangalpur, West Bengal	TOTAL (MTPA)
Iron Pellets	1.8	1.8		3.6
Ferro Alloys	0.10	0.07	0.04	0.21
DRI (Direct Reduced Iron)	0.96	1.09	0.06	2.11
Billets	0.64	0.83		1.47
TMT, WDM, SRM	0.72	0.75		1.47
Captive Power	158 MW	94 MW	15 MW	267 MW

(*Capacities as of 20th Oct, 2022)

Current Capacities Across Steel Life Cycle

Iron Making

Pipe Mill 0.03 MTA

Foray into Aluminium Foil segment

Aluminium Plant – Pakuria , West Bengal & Giridih, Jharkhand

- Capacity: 40, 000 TPA
- Plant installed by Achenback (Germany) a pioneer in the industry
- Spread over 5 acres
- Rolling range: 40 to 5 micron with annealing capability, customised as per demand

...Lowest Capex compared to the Industry

- Brownfield capacity expansion expected to increase aggregate installed metal capacity (comprising of intermediate and final products) from 8.86 MTPA currently to 14.45 MTPA and captive power plants aggregate installed capacity from 267 MW to 357 MW. These proposed expansions are expected to become operational between Fiscal 2023 and Fiscal 2025
- Railway sliding – 2 additional tracks at both Jamuria & Sambalpur plants, at an aggregate cost of Rs 180 crores
- Commissioned an aluminium foil rolling mill at Pakuria in West Bengal with an installed capacity of 0.04 MTPA, the plant is now operational. The Capex incurred for the project is Rs. 355 crores.
- Company has ample land available for expansion for the next 5 years

Advantages of Brownfield Expansion

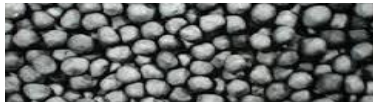

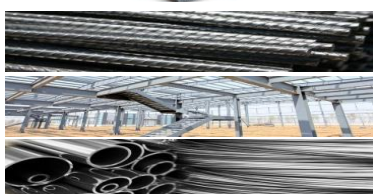

Lower fixed costs due to using already established facilities, infrastructure, and network

Lower staffing and training costs, due to the presence of already-employed workers at the facility

Low cost advantage for expansion of power capacity.
Capex incurred: Rs 110 cr for 40 MW, effectively Rs 2.75 cr vs industry average of 4.5 cr per MW

Diversified & Interchangeable Product Mix

Capacity (Million MTPA)			FY19	FY20	FY21	FY22	H1 FY23
Existing Products		Iron Pellet	0.90	2.4	2.4	3.6	3.6
		Sponge Iron	1.01	1.27	1.39	2.11	2.11
		Billets	0.63	0.80	0.89	0.94	1.47
		TMT, Structural Steel, Wire Rods & Pipes	0.25	0.82	0.82	0.90	1.47
		Ferro Alloys	0.21	0.21	0.21	0.21	0.21
		Captive Power (MW)	164	227	227	267	267
		Aluminium Foil				40,000 TPA	40,000 TPA
New Products		Coke Oven	Proposed Capacity of 450,000 TPA				
		Blast Furnace	Proposed Capacity of 600,000 TPA				
		Ductile Iron Pipes	Proposed capacity of 200,000 TPA				

On an aggregate basis, the Capacity Utilization is between 90% - 95%

Increasing share of B2C/Value Added Products

Structural Products are hot rolled products of special forms like rounds, angles, channels & beams

We not only make structurals of standard dimensions, but also **Customized Products for Specific Applications**, economically and quickly

TMT Bars are high-strength reinforced bars having a tough outer core and soft inner core

SEL

Our products are sold mainly across Eastern, Central ,Northern and Western Regions of India with some penetration in Southern India. Our TMT and structural products are sold under the brand “SEL”.

Steel Products

~68%

Revenue Contribution in H1 FY23

Huge Export Potential

7

Countries

Exports to countries like USA, Japan, Korea, Italy, Nepal, Bangladesh

Steel products both upstream and downstream including Angles, Beams, Billets, Channels, Wire Rods, MS Round Coils and Sponge Iron

Ferro Chrome
Ferro Manganese and Silico Manganese Products

Aluminum Foil Products

9%

Export Contribution to Revenues in Q2 FY23

We are preferred suppliers to large corporations like

Norecom
DMCC

POSCO Intl
Corp

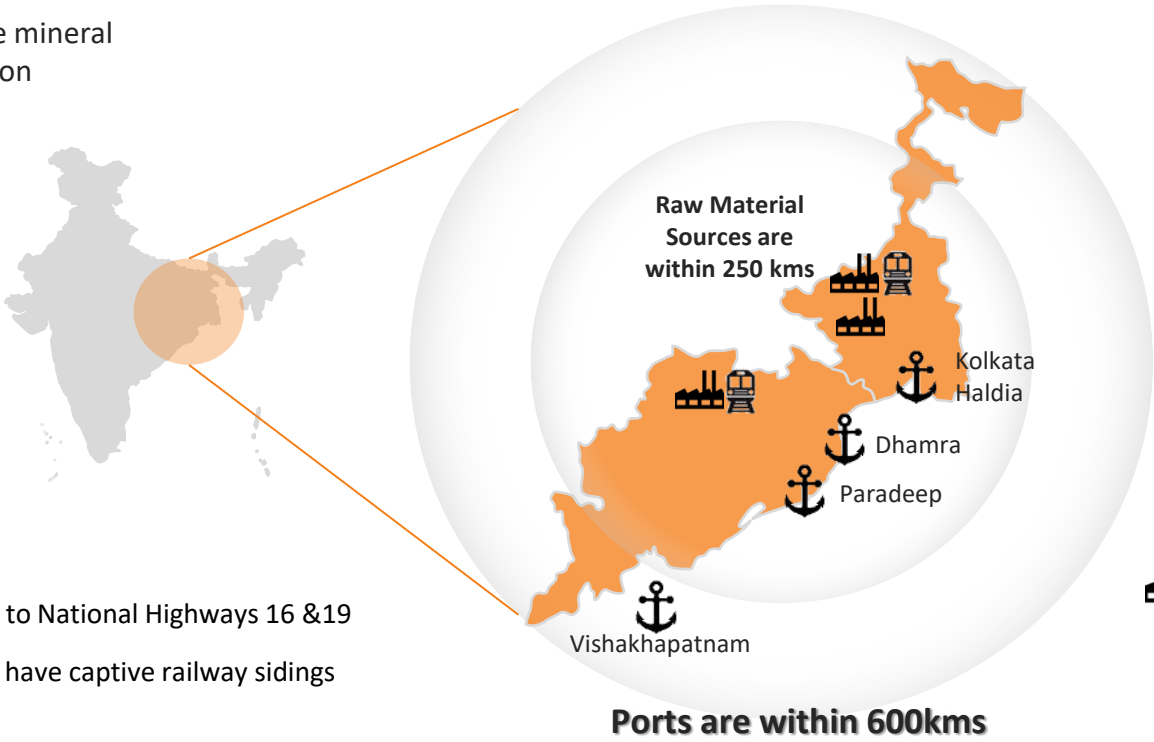

World Metals
& Alloys (FZC)

TRAXYS North
America LLC

J M Global
Resources

Strategically Located - Supported by Infrastructure

Strategically located in the mineral rich East Indian region

- Plants are in close proximity to National Highways 16 &19
- Sambalpur & Jamuria Plants have captive railway sidings

~800+ dealers & distributors stock and sell the finished products across 27 states and 1 Union Territory

We sell 70% of our products within the vicinity of 500 Km from our plants

Key Raw Material	Source
Iron ore / Iron ore fines	Mine owners located in Odisha
Chrome ore	Long term linkages with Odisha Mining Corporation Limited, other mine owners and imports
Manganese ore	MOIL Limited, other mine owners and imports
Coal	Fuel supply agreements entered into with Mahanadi Coalfields Limited, Central Coalfields Limited and South Eastern Coalfields Limited

Lowest Cost Captive Power

- Power consumed by the plants are primarily produced in-house by the captive power plants
- Captive power plants utilise non fossil fuels such as waste, rejects, heat and gas generated from the operations to produce electricity
- Cost of in-house power is significantly less than grid power which costs INR 5-7 Per Unit *

Sambhalpur	5 Captive Plants Total Capacity of 158 MW
Jamuria	3 Captive Plants Total Capacity of 94 MW
Mangalpur	1 Captive Plant Total Capacity of 15 MW

Captive Power to Total Power Consumed

Cost of Per Unit of Captive Power** (Rs./KWH)

Current Capacity* (MW)

Captive Power Plant Expansion Plans (MW)

* Source: CRISIL Report; **Average cost of Power from Captive Power Plant = Total cost of power from all Captive Power Plants / Total production units

Waste to Value

Efficient use of by products: Effluents/Wastes from all the production activity are utilized in various product verticals to create a set of High Value-added Products

Washery rejects used in Power Plant

Steam generated used in production of Power and then in Ferro Alloys

Fly ash bricks are created from industrial wastes

Fly ash bricks which are manufactured from various industrial wastes such as fly ash, sand, stone, dust and cement, are used globally nowadays over clay bricks and traditional red bricks

Fly ash bricks are also known for being highly durable, less permeable and environment-friendly as they are manufactured from waste materials that generate from the combustion of coal in thermal power plants.

Power generated by using flu gases and capturing of heat through waste heat recovery boilers

Capacity Expansion –Share of High Value Products to Increase

Break-up of Capacity Expansion (MTPA)

Capacity Expansion is on the existing land, will help Company augment revenues, better cost controls, increase in profitability

Target completion between FY22 and FY25
Total Capex Cost aggregating to ~Rs. 3,950 Crs.

Capacity expansion focused on increase share of high value products

Revenue mix skewed towards Finished Steel

Revenue Mix

Volumes (in lakh tonnes)

Flexibility to Sell Intermediate Product, use for Captive Consumption

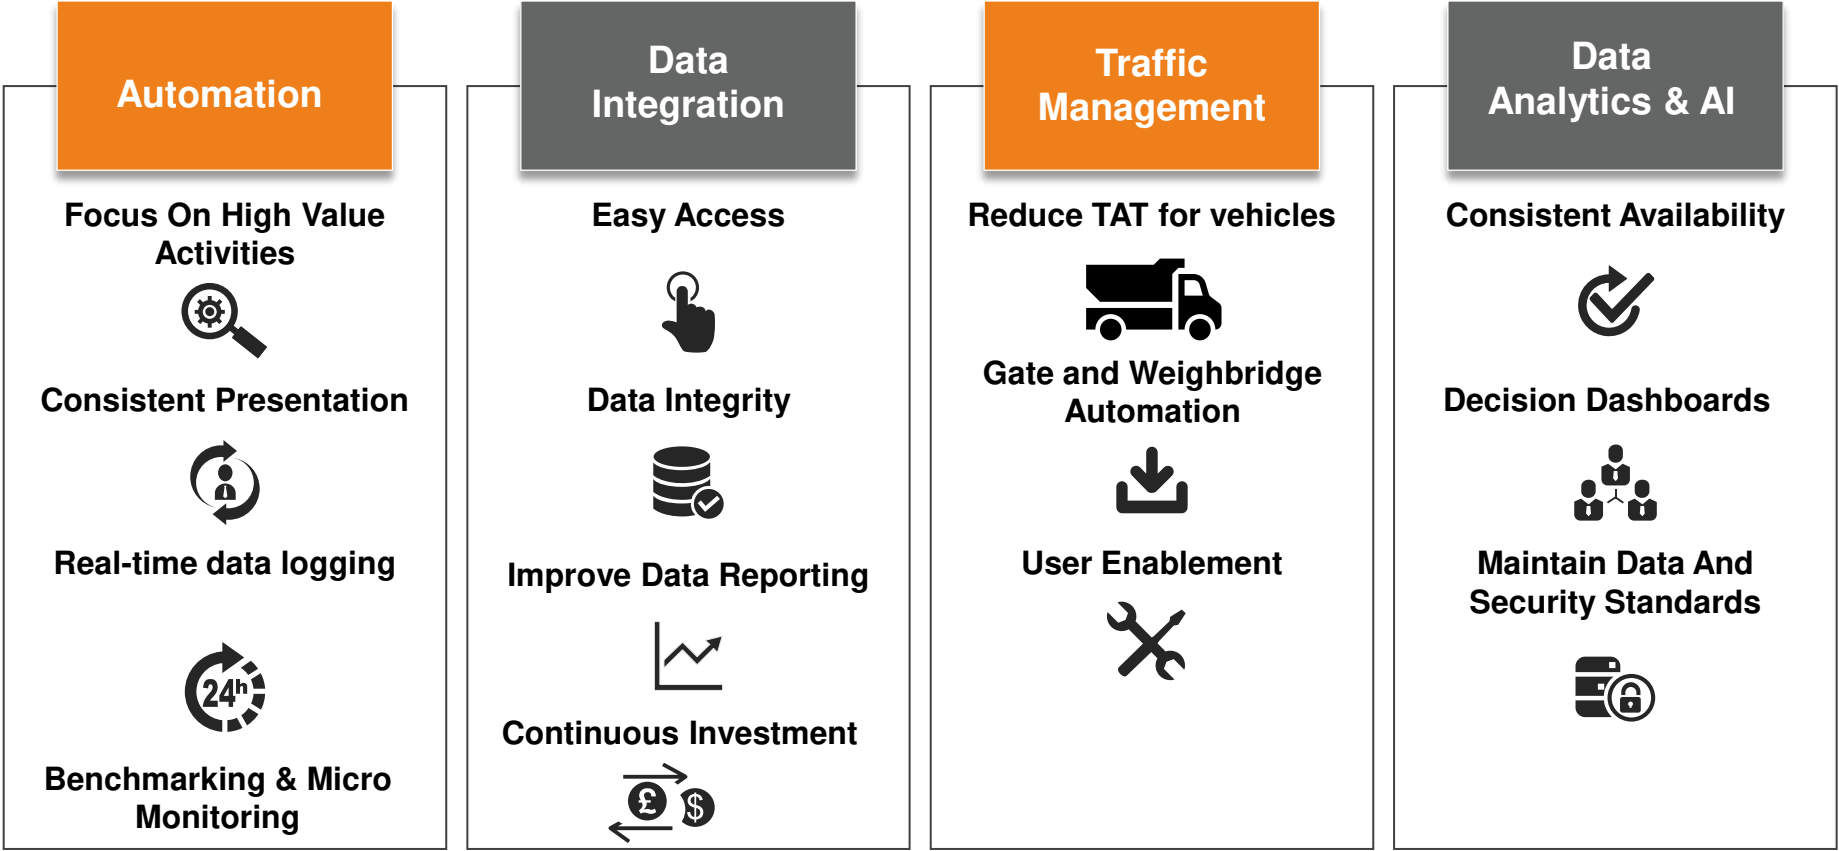

Make customized products to capitalise on market opportunities

Reduced dependency on any particular product
